of survey report for the building to be demolish
submitted.

--

(1)

I enclose herewith a copy of letter No.1120 SE Dated 23-6-55 of the Executive Engineer, South Kanara Division along with the Survey Report in triplicate requesting approval to dismantle the buildings (as shown in the enclosed plan) and dispose off the dismantled materials. As the book value of the buildings is more than Rs.5,000/- i.e. beyond the powers delegated to the Superintending Engineer in para 235 of Madras Public Works Department Code, the sanction of competent authority is necessary.

2. These are very old buildings (single story and tiled) and are assessed to have a present value of only Rs.3,500/- after showing for depreciation etc. In the scheme estimates dismantling of this buildings is already approved by Government and a credit of Rs.3,500/- has been assessed during sanction.

3. As it is programmed to start the work soon after the monsoon in September this year, it is absolutely essential to get the site, in question, ready for construction the building by that time so as to take action at this end early in August. Hence I request that the Survey Report may please be got sanctioned by the competent authority as quickly as possible and forwarded to this office at an early date.

Sub: Proposed surgical ward of 120 beds-construction
Survey report for the building to be demolished-
submitted.

--

In G.O.No.2473 dated 15-7-54 sanctioning improvements to the Headquarters Hospital, Mangalore, there is provision for t construction of the proposed surgical ward of 120 beds. For the construction of this block, some of existing buildings as shown in the enclosed plan have to be demolished and the cost of buildings to be demolished as per the register of buildings is Rs 31,744/- The buildings proposed to be demolished to find space for the construction in 1841. If the depreciation deducted, the value of these buildings become nil and as the improvements to the Hospital are to be done, these buildings have to be demolished. In the scheme, estimate sanctioned in G.O.2473 Dated 15-7-54, the demolition was contemplated and a credit value of Rs.3,500/- was provided in the estimates and this amount is now provided in as the assessed value in the enclosing survey report.

3744 B

The priced estimate for the surgical block is submitted separately and it is programmed to start the work after the monsoon in September and it is absolutely necessary to get the site ready for the building by that time and so I request that the survey report may be got sanctioned early to take action at this end early in August. To spend the grant allotted for the year, the surgical block work had to be taken up and so the sanction of the survey report is very urgent and may be got quickly from competent authority.
